

1.8.1 Distribution of Modules in the Semester

Table 1.6.2.1:Semester I Modules

S/N	Module code	Module title	Class	Credits
1	CDD 06111	Code Exploit using Python	Core	12
2	CDD 06112	Fraud and Forensic Auditing	Core	9
3	CDD 06113	Blockchain Technology	Core	6
4	CDD 06114	Artificial Intelligence in Security	Core	6
5	CDD 06115	Cloud Computing and IoT Security	Core	9
6	CDD 06116	Incident Response and disaster recovery	Core	6
7	CDD 06117	Final Year Project Work-I	Core	12

Table 1.6.2.2:Semester II Modules

S/N	Module code	Module title	Class	Credits
1	CDD 06211	Cryptography and Steganography	Core	12
2	CDD 06212	Information Assurance, Security & Auditing	Core	9
3	CDD 06213	Database Security	Core	12
4	CDD 06214	Mobile and Wireless Security	Elective	9
5	CDD 06215	Mobile Device Forensic	Elective	9
6	CDD 06216	Information Security Management	Fundamental	6
7	CDD 06217	Final Year Project work-II	Core	12

Module Code	Module Name	Distribution of Hours per Week				Credits
		L	T	P	AS	
CDD 06111	Code Exploit using Python	2	0	4	2	12
CDD 06112	Fraud and Forensic Auditing	1	0	3	2	9
CDD 06113	Blockchain Technology	1	0	2	1	6
CDD 06114	Artificial Intelligence in Security	1	0	2	1	6
CDD 06115	Cloud Computing and IoT Security	2	0	4	2	9
CDD 06116	Incident Response and disaster recovery	1	0	2	1	6
CDD 06117	Final Year Project Work-I	2	0	5	1	12

1.9.1 Semester II: Scheme of study, Hours Per week and their Credits

CDD 06212	Information Assurance, Security & Auditing	1	0	3	2	9
CDD 06213	Database Security	2	0	4	2	12
CDD 06214	Mobile and Wireless Security	1	0	3	2	9
CDD 06215	Mobile Device Forensic	1	0	3	2	9
CDD 06216	Information Security Management	1	0	2	1	6
CDD 06217	Final Year Project work-II	2	0	5	1	12
